ProDock™ Alumina

IBU-33404

UNIVERSAL VEHICLE DOCK

Keep your phone in a secure and easy to view position while driving with the iBOLT ProDock Kit. Benefit from optimized GPS and cell phone signal with phone placed in the windshield area. Use with a Bluetooth hands-free solution or as a speaker phone for a complete hands-free driving experience.

The stylish ProDock works with all Smartphones. Thanks to the adjustable aluminium latch, even thick rubber cases will fit. To use, place the phone on the support feet and press latch downward to secure phone. To remove, press release button on the side. Support leg allows for vertical position as well.

The ROK Solid mount has a strong 70 mm suction cup and is designed for a vibration free driving experience. The ball-joint construction in back of cradle allows the driver to adjust to most any viewing angle. An easy to use Air Vent Mount is also included.

BENEFITS

- Keeps your device in a secure and easy to view position
- Stylish design with quality material - looks great in any car
- Works with all Smartphone models - with or without cases
- Zero install - windshield, dash and vent mount options
- Camera view open while driving on most phones
- Available in attractive "Try Me" retail packaging
